

INDEX.

A.

Abortion; and retained placenta, 117; chlorate of potash in, 139; a painless and extraordinary case, 221; threatened, bromide of potassium in, 343; crime of, 415; death from, 418, 452.

Abscess; concrete of liver, following chronic diarrhoea, 130.

Absinth, 355.

Absorption of cataract, spontaneous, 379.

Abstinence from food, a remarkable case, 417.

Accident; singular, 97, 156; sad, to a physician's family, 418.

Acid; carbolic, 78, 91, 433; carbonic oxide, apparatus for giving alarm of the presence of, 93; carbolic, strength of solution, 177; do., doses and medicinal value of, 230; for sickness in pregnancy, 319; phenic as a febrifuge, 336; formulae for, 340; chronic poisoning by, 362.

Aconite, poisoning by, 157.

Acorus as food, 129.

Acute rheumatism, 475; digitalis in, 149, 170.

Acupuncture, sciatica treated by, 358.

Adenoid tumor of breast, 209.

Adulterated, honey, 39; milk, 325.

Advertisement, a New York, 153.

Aged dead of 1868, 79.

Ague in Russia, 451.

Air passages, foreign bodies in, 260.

Air, compressed and varified, therapeutical uses of, 32.

Alcohol, test for strength of, 252.

Alcoholic stimulation in disease, 296.

Alcoholism, 189.

Alkaloids of cinchona, pharmacology of, 111.

Ambergris, 307.

Amputation; at the shoulder, 85; of the fore-arm; of the hand above the wrist, 295; modification of TEAL's method of rectangular flap in, 336.

Anaesthetic, protoxide of nitrogen as, 30.

Anaesthetics, 182.

Analysis of lager beer, 381.

Anastomosis of ear, aneurism from, 63.

Anatomical: museums, 270; specimens, new method of preserving, 412; new feature in human blood corpuscles, 422.

Ancient hair dyes, 326.

Aneurism: by anastomosis of the ear, etc., 63; femoral and iliac artery, 187; of the splenic artery; 351; hypodermic use of ergot in, 387; electro-puncture in thoracic, 444.

Angina pectoris, etherization in, 401.

Animal substances vulcanized, 39.

Anomaly, curious, 309.

Anthrax, a case of, 391.

Antidotal action of opium and belladonna, 16.

Apoplexy, partial recovery, followed by paralysis, 276.

Apothecaries weights, re-arrangement of in Germany, 302.

Apparatus for giving alarm at presence of carbonic acid, 93.

Appetite, depraved, 320.

Applicator, a urethral, 368.

Arm, mutilation of by musket ball, 208.

Army and Navy news, 19, 80, 100, 160, 237, 255, 346, 363, 381, 400, 436.

Arrest of hemorrhage, venesection for, 169.

Arsenic: in phthisis, 51; a family poisoned by, 179; eating, 474.

Artery: femoral, priority in the ligation of, 11; carotid, ligation of, statistics, 151; splenic aneurism, 351; femoral and iliac aneurism of, 187.

Artificial respiration in opium poisoning, 34.

Asexualism, case of, 376.

Assafetida suppositories, 135.

Associations, Maternal, of Paris, 476.

Asthma: atomized medication for, 23; bromide of potassium in, 158; treatment of, 253.

Ataxia locomotor, phosphorus in, 267.

Athletic amusements, 251.

Atomized medication for Asthma, 23.

Auricular hematoma of the insane, 394.

Australian disease, the, 367.

Axillae, dislocation of both humeri into, 78.

B.

Balbuties, 28.

Balsam of copaiba in psoriasis, 319.

Bath, Russian, hydrophobia treated by, 413.

Battery, NEY's, 219.

Bean, calabar, tetanus treated with, 244.

Beer, lager, analysis of, 381.

Beef, fresh, extract of, 116.

Belladonna and opium, antidotal action of, 16.

Bequests, 327.

Bile, influence of on salts of quinine, 182.

Binder, discussion on, 4; for parturient women, 253.

Biographical sketch of Gen. R. C. Wood, M. D., 275.

Birth, retarded, red line around funis as a sign of, 66.

Bisulphide of carbon, a remedy for headache, 134, 230.

Bladder, urinary, termination of sensitive nerve of, 181.

Black knot in trees, 361.

Bleaching sponges, 416.

Bleeding, 199; in puerperal convulsions, 383.

Blindness, temporary, 185.

Blisters and hypodermic injections, 146.

Blood; stains of diluted and undiluted—microscopic means of distinguishing, 21; development of red corpuscles in marrow, 149; movable bodies in, 181; letting, in eclampsia of pregnant women, 419; a new anatomical feature in corpuscles of human, 422.

Body, foreign, in air passages, 260; in ear, 298.

Book, a villainous, 342.

Boxes, Norwegian felted, 470.

Brain; weight of, 77; wound of, and recovery, 86; laceration of, recovery 162; and stomach, gout of 198; reproduction of, 266.

Bread, whole meal, 17.

Breast, adenoid tumor of, 209.

Bromide of potassium, 376; in laryngismus stridulus, 65; in asthma, 158; in threatened abortion, 343; in puerperal convulsions, 348; chorea of 13 years standing, cured, 351; in epilepsy, 454.

Brooklyn central dispensary, 156.

Broth, Meat, 214.

BULLOCK & CRENSHAW, 397.

Burn, extensive curing epilepsy of long standing, 145, 230.

C.

- Cajeput, oil, color of, 251.
 Calabar bean, tetanus cured by, 244.
 Calculi, large salivary, 48.
 Calculus, singular case of, 308.
 Calomel, 112.
 Camphor, danger of strong doses, 153.
 Canal, Suez, 353.
 Cancer; in its relations to geological structure, 68;
 doctors, 219; case of, 369; cases, and clergymen,
 397.
 Carcunum oris, 78.
 Carbolic acid, (see *Acid, carbolic*), crystals of, 456.
 Carbon, bisulphide of; a remedy for headache, 134,
 239.
 Carbonic oxide, apparatus for giving alarm in case
 of presence of, 93.
 Carbuncle, a fatal case, 459.
 Carcinoma with pericarditis, 44.
 Carelessness, culpable, 76.
 Caries, of palate, from injury, 163.
 Carotid; ligation of by silver wire, etc., 63; artery
 ligation of—statistics of operation, 151.
 Cataract; attended with complications in the opera-
 tion, 61; spontaneous absorption of, 379.
 Cerebral lesions, severe, recovery from, 321.
 Cerebri, hernia, 207.
 Charlatan, another, 38.
 Chairing a woman doctor and a prima donna, 159.
 Charities and correction, public, in N. York, 294.
 Charity Hospital, Jersey City, 76.
 Charts health, 179.
 Cheap diplomas for sale, 306.
 Chemical principles in cure of obesity, 19.
 Chemical laboratory of University of Leipzig, 218.
 Chemistry-micro, 145.
 Chest, a hygienic ice, 435.
 Child; concretion of joints in a, 47; a precocious, 377.
 Children; feeble minded, Penna. school for training,
 54; habitual constipation in, 171.
 China, gratuitous medical advice in, 358.
 Chlorate of potash in abortion, 139.
 Chloroform, 475; death from, 179; vs. ether, 133.
 Chlorosis, 150.
 Chorea; treatment 274; of 13 years standing cured
 by bromide of potassium, 351.
 Chronic acid, poisoning by, 362, use of, 556.
 Cimicifuga, poisoning by, 440.
 Cinchona, pharmacology of the alkaloids of, 111.
 Circumcision in syphilis, 468.
 Clerical; surgeon, 38; endorsements, 176.
 Clergymen and cancer cures, 397.
 Climates and locality, influence in mitigating pul-
 monary tuberculosis, 41.
 Climates for the infirm, 7.
 Coal oil as a medicinal agent, 313.
 Cold, how to cure, 265.
 College, Jefferson Medical, 358.
 Commencements, medical, 235, 250.
 Compendium, Half Yearly, 116, 234.
 Complicated case a, 58.
 Complications in operations for cataract, 61.
 Concretions of the joints in a child, 47.
 Confection of senna in hemorrhagic affections, 451.
 COHNHEIM's alleged discovery, 331; theory, 372.
 Consanguineous marriages, 435.
 Consolidation following pneumonia, 441.
 Constipation, habitual in children, 171.
 Consumption infectious, 18.
 Consumptives, winter in Florida for, 101.
 Contagion, microscopic fungi as the cause, 11.
 Contagious diseases, fees in 341.
 Convulsions, 433; puerperal, 119; bromide of po-
 tassium in, 348; bleeding in, 383; bromide of
 potassium in epileptic, 454.
 Cooks, too many, 234.
 Copalba, in treatment of psoriasis, 319.
 Coralline, 251.
 Cornutum secale in diarrhoea, 326.
 Corpses, mode of identification, 182.
 Corpuscles; red blood, in marrow, 149; new ana-
 tomical feature in human blood c., 422.
 Correspondents, answers to, (last page of each no.)
 Cosmetics, hair dyes, &c., 444.
 Cough, whooping, remedy for, 372.
 Coxalgia, 295.
 Crime of abortion, 415.
 Criminal; at large, 116; poisoning, 450.
 Croup, sulphuret of potassium as a remedy, 377.
 Curative power of mullein, 272.
 Cure for snake bites, 455.
 Currents, inductive, 361.
 Cyst, ovarian, containing hair, 171.

D.

- Daily Pocket Record, the, 198; 324.
 Dangers of injurious extension of the lower extremi-
 ties, and means of prevention, 81.
 Dead, aged of 1868, 79.
 Death of Prof. GRISOLLE, 311.
 Death; by a spider, 17; from heart clot, 106; from
 chloroform, 179; from abortion, 418, 452; sign of,
 451.
 Deaths—(see last page of each No.)
 Decay of erudite physicians, 434.
 Deliberations of Pharmacists, 342.
 Dentistry, Japanese, 377.
 Dentifrice, 456.
 Depraved appetite, 320.
 Dermatologist, Prof. HEBRA, the, 449.
 Destroyed, a valuable scientific museum, 434.
 Detection, and forensic judgments of diseased state
 of mind—contributions for physicians, judges, and
 counsel, —
 Diabetes, opium in, 411.
 Diagnosis; of early pregnancy, 70; instrumental,
 128, 144; faulty, 187.
 Diarrhoea; chronic, concrete abscess of liver follow-
 ing, 130; secale cornutum in 326; formulae for, 357.
 Diet, milk, in disease, 132.
 Digitalis; in acute rheumatism, 149; in heart dis-
 ease, 332.
 Diploma, value of a medical, 137.
 Diplomas for sale cheap, 306.
 Diphtheria, creasote in, 344.
 Diphtheritis, something about, 146.
 Discoveries in the North Sea, 215.
 Discovery, Cohnheim's alleged, 331.
 Disease; a milk diet in, 132; alcoholic stimulants
 in, 296; tampering with, 325; of heart in the
 British army, 327; of heart, digitalis in, 332; the
 Australian, 367; a nomenclature of skin, 393;
 specific skin, 441.
 Diseases, contagious, fees in, 341.
 Dislocated shoulder, case of, 344.
 Dislocation of spine, 35; of both humeri into the
 axillae, 78; of head of humerus, repeated, 142; of
 the patella, 158; of humerus of two months'
 standing, 224.
 Dispensary, Central, Brooklyn, 156.
 Displacement of uterus, use of silver uterine sup-
 porter in, 366.
 Distinguished physicians, photographs of, 432.
 Distortion of leg from badly united fracture—
 operation and recovery, 141.

INDEX.

Doctor: a woman, and a prima donna chairing of, 159; a political, 159.
 Doctors; cancer, 219; brisk trade in, 375.
 Doses: of camphor, danger of strong, 153, and medicinal value of carbolic acid, 230.
 Dose, a full, 54.
 Drinks, intoxicating, in U. S., 284.
 Drinking water, metals in, 145.
 Dropped fee, 435.
 Dropsy, ovarian, cured by tapping, 47.
 Drug, law in N. Y., 375; bill in N. Y., 432.
 Drugs, rejection of, 159; economy in, 192.
 Druggists, liability of, 17.
 Druggist v. Physician, 120.
 Duration, average, of life, 80.
 Dyes: hair, 37; poisonous, 66, 152, poisonus hair, 171; ancient hair, 326; and cosmetics, 444.
 Dysentery, case of, 441.
 Dysmenorrhea, its pathology, 223.

E.

Ear; polypus of, 36; aneurism by anastomosis of, operation, 63; disease of, 259; foreign body in, 208; removal of pebble from, 308; removal of grain of Indian corn from each ear, 331.
 Eating arsenic, 474.
 Eclampsia; gravidarum, 118; puerperarum, 138, 329; blood letting in pregnant women, 419.
 Economy in drugs, 192.

Hemorrhagic affections, confection of Senna in, 451.
Hair dyes, 37; poisonous, 171; ancient, 326; and cosmetics, 444.
Hair, ovarian cyst containing, 171.
Hand, amputation of, above the wrist, 295.
Hard hits, 217.
Head, severe injuries of, 161; extensive fracture of os frontis, laceration of brain, operation, recovery, 161, 162.
Headache, bisulphide of carbon, a remedy for, 171; 239.
Health; charts, 179; v. sewing machines, 272; committee of Liverpool, 274; and occupation, 320.
Heart; clot, death from, 106; of a fowl, pin imbedded in, 198; action of, in new-born infants, 273; disease in British army, 327; digitalis in, 332.
HEBRA, Prof., the dermatologist, 449.
Heifer, vaccination from the, 474.
Hemorrhage; venesection for arrest of, 169; tincture erigeron canadense in, 217; after extraction of tooth, 286; arrested by torsion and transfixion, 399.
Hereditary, syphilis, 441.
Hermaphroditism lateral, 8.
Hernia; lecture on—(trusses) 201; cerebri, 207; double and extrophy of bladder, 208.
Homoeopathy: Professor of in Univ. of Mich., 302.
Honey, adulteration of, 39.
Horse-flesh as modern food, 195, 339.

HOSPITAL REPORTS:

Pennsylvania Hospital.

Kidney complications in intermittent fever, 110.
Post-mortem specimens—large vomica; concrete abscess of liver following chronic diarrhoea, 130.

Post-mortem specimens, 182; intestinal and pulmonary phthisis, 182; displacement of liver, 183.
Amputation of the fore-arm; of the hand above the wrist; coxalgia, 295; rheumatoid cases, 385.
Specific skin diseases; hereditary syphilis; consolidation following pneumonia; dysentery 441.
Compound fracture of right humerus, 477, ununited fracture, treatment of, 478.

Jefferson Medical College.

Tracheotomy, 48.
Extrophy of the bladder, 208; mammary tumor; adenoid tumor of breast, 269.
Encephaloid tumor of the occiput; syphilitic tumor, 225.
Scirrhus of mammary gland; disease of the ear, 259; foreign body in the air passages, 260.
Paraplegia; Re-amputation of fore-arm; ranula, 279.
Otorrhoea; whitlow, 312; excision of inferior dental nerve for neuralgia, 313.
Hospital: Charity, at Jersey City, 76; Philadelphia, female physicians at, 179; report of St. Mary's, 254.
Hospitals for Insane, 39; southern, 91.
Hotel Dieu: removal of, 180; mortality in, 435.
Human: subject, external mensuration of, 1; blood corpuscles, a new anatomical feature of, 422.
Humbugs, medical, and New York Tribune, 40.
Humeri, dislocation of both into the axillae, 78.
Humerus: compound, comminuted fracture of—amputation at shoulder, recovery, 85; repeated dislocations of head of, 142; dislocation of two months standing, 224.
Hydrogen, peroxide of, 256.
Hydrogenium, 79, 252.
Hydrophobia, 199, 268, 455; treated by Russian bath, 413.
Hygienic ice chest, 435.
Hypnotics, other than opium, 196.
Hypertrophy of mammae, 31.
Hypodermic injections: and blisters, 140; discovery of, 252; use of ergot in aneurism, 387; a soluble salt of Mercury for, 416.
Hysteria, treatment of, 135.

I.

Ice chest, hygienic, 435.
Idiopathic priapism, 299.
Iliac and femoral artery, aneurism of, 187.
Impressions maternal, 16.
Improvement, 358.
Improvements, recent, in operative surgery of the eye, 71.
Inclination irresistible to sleep, 249.
Indian corn, grain in each ear, removed, 331.
Inebriate asylum, inspection of, 436.
Infants, action of heart in new born, 273.
Infirm, climates, for the, 7.
Inhalation, preparation of oxygen for, 190.
Injections: hypodermic, 140; discovery of, 252; of ergot in aneurism, 387; a soluble salt of mercury for, 416.
Inquiry an, 308.
Insane; early treatment of, 72; the, 109, 159; man kills his wife and four children—commits suicide, 309; auricular hematomas of the, 394; WILLARD asylum for, 397; Law regulating in Penn'a, 430.
Insanity; detection, and medical and legal relations of, 69; alleged cases of, 13; statistics of, 91.
Inspection of quack medicines, 325.
Instrumental diagnosis, 128, 144.

Instruments, patent, 55, 445.
Intermittent affection, obscure, 435.
Intestinal and pulmonary phthisis, 182.
Intoxicating drinks in the United States, 284.
Invalids, Florida for, in winter, 449.
Iodide of iron, preservation of syrup of, 177.
Iron: cast stoves, causing typhus fever, 12; iodide of preservation of syrup, 177; chloride of, poison-
ing by tincture, 366.

J.

Japanese dentistry, 377.
Jaundice, connected with persistent vomiting, 62.
JOBERT, (de Lamballe,) Dr. 92.
Jefferson Medical College, 358.
Joints concretions of in child, 47; Jungle fever, 254.

K.

Kerosene oil, 76.
Kidney complications in intermittent fever, 110.
KRISTELLER'S method of fetal expression, 7.

L.

Laboratory, new chemical, of Univ. of Leipsic, 218.
Lactation, singular case of by an old woman, 135.
Lager beer, analysis of, 381.
Laryngismus stridulus, bromide of potassium in, 65.
Law; Medical of Wisconsin, 273; of Minnesota, 362; drug, in N. Y., 375.
Leg, distortion of from badly united fracture, operation and results, 141.
Liebig's extract of meat, 14; factory for, 434.
Leipsic, new chemical laboratory in, 218.
Leprosy and marriage, 397.
Lesions, severe cerebral, recovery from, 321.
Letter; from Paris, 14; 360; 377; from Vienna, 33.
Liability of druggists, 17.
Library, of Dr. ENOS, of N. Y., 271.
Life, loss of by fire in public institutions, 14; average duration of, 80; Insurance examinations, manual for, 197; boat, institution, Royal national, 327.
Ligation; of common carotid, by silver wire, 63; of funis, 226.
Ligament, a new, description of, 450.
Ligature; of the femoral artery, priority of, 11; of carotid artery, with statistics of operation, 151.
Light, electrical, and vapors, experiments with, 252.
Lines spectrum, 394.
Lip, reconstruction of upper, 348.
"Liquors, pure sold here," 39.
Lithotomy, spontaneous, 185.
Little ones, save the, 219.
Liver; granular disease of and old valvular disease of heart, 106; concrete abscess of following chronic diarrhoea, 130; displacement of, 183.
Liverpool health committee, 274.
Locomotor ataxia, phosphorus in, 267.
Loechial discharge, profuse and long continued, 454.
Longevity in Mexico, 185.
Lower extremities, danger of injudicious extension, and means of prevention, 81.
Lunacy, alleged increase of, 191.
Lungs, foreign objects in, 214.
Lyceum of Natural history, N. Y., 260.
Lupuline, therapeutic value of, 137.

Pennsylvania State, 479.
Medication, atomized, for asthma, 23.
Medicinal; value of carbolic acid, 230; agent, coal oil as a, 318; fish oils, 321.

- Medicines; quack, inspection of, 325; value of, 412.
 Men and monkeys, 267.
 Mensuration external of human subject, 1.
 Mercury; detection of in poisoning, 171; syphilis treated without, 191, 334, 354; fumes, 214; soluble salt of, for hypodermic injections, 415.
 Merit, unrewarded, 358.
 Metals, in drinking water, 145.
 Method, new of preserving anatomical specimens, 412.
 Meteorological observation, 140.
 Meterology, (see last page of each number.)
 Mexico, longevity in, 185.
 Microscope; new mode of preparing objects for, 51; to ascertain the power of a, 217.
 Microscopic; fungi as the cause of contagion, 11; component parts of vaccine lymph, 27; means of distinguishing the stains of undiluted from those of diluted blood, 21.
 Micro; photography, 39; chemistry, 145.
 Milk; diet in disease, 132; fungus, 317; adulterated, 325.
 Military medical matters, 33.
 Mind, detection of disease of, and medical and legal relations of, 69.
 Minnesota medical law, 362.
 Miscarriage without pain, 28.
 Miserable, how to make yourself, 307.
 Mistake fatal, 177.
 Modifications, useful, of uterine dressing forceps, 22.
 Mong Shaw Loo, 117.
 Monkeys and men, 267.
 Monster, curious, 138; monstrosity strange, 230.
 Morphia, excessive use of, 484.
 Mortality in Hotel Dieu, 435.
 Mullein, its curative power, 272.
 Museum, valuable scientific destroyed, 434.
 Musical wonder, 60.
 Musket ball, mutilation of arm by, 208.
- N.**
- Needle four inches long, the nucleus of urinary calculus, 192.
 Negro, mania a potu in a, 309.
 Nephogene, Read's, 198.
 Nerve, radial, functional neurosis of, 119; section of tibial for neuralgia, 293; excision of inferior dental, for neuralgia, 313; sensitive of urinary bladder, termination of, 181.
 Nervous system, physiology of—preliminary remarks on, 461.
 Neuralgia; section of tibial nerve for, 293; ergot of rye in, 309; excision of dental nerve for, 313; of the face, 371; formulæ in treatment of, 155.
 Neurosis functional of the radial nerve, 119.
 Ney's battery, 219.
 Nitrogen, protoxide of as an anæsthetic, 30.
 Nomenclature of skin disease, 393.
 Norwegian felt boxes, 470.
 Nosology, a new, 335.
 Notes on Books, 12, 31, 72, 93, 112, 153, 172, 192, 214, 280, 356, 372, 394.
 Nucleus of urinary calculus, a needle four inches long, 192.
- O.**
- Obesity, cure for on chemical principles, 19.
 OBITUARIES:
 Prof. Aug. Ed. Ferd. Colburg, 40; Ira Day, 59; Karl Fred. Phil. Von Martius, 80; Prof. Balassa, 120; Usher Parsons 96; Daniel Holmes, 200; Kersey G. Thomas, 225; Alex. H. Stevens, 327; O. M. Pray, 346; Minturn Post, 364; Robley Dunglison, 310, 382; Philip Physic Randolph, 382.
- Objects, new mode of preparing for microscope, 51.
 Occiput, encephaloid tumor of, 225.
 Occupation and health, 320.
 Odors poisonous, 217.
 Ohio, medical law in, 154.
 Oil: olive, therapeutic value, 29; kerosene, 76; of cajuput, color of, 251; coal, as a medicinal agent, 313.
 Oil, fish, medicinal, 321.
 Oleum, terebinthina, in erysipelas traumaticum, 11.
 Olive oil, therapeutic value of, 29.
 Opium and belladonna, antidotal action of, 16; poisoning, artificial respiration in, 34; case of poisoning 87, 89, 142, 253; attempted suicide with, 157; habit, 364; in diabetes, 411; cultivation in U. S., 424.
 Opiates, hypnotics and sedatives other than, 196.
 Ovarian dropsy cured by tapping, 47.
 Ovarial cyst containing hair, 171.
 Ovariectomy, case of, 275, 311.
 Oxygen, 355; preparation for inhalation, 190.
 Ozena, treatment of, 237.
- P.**
- Pain, miscarriage without, 28.
 Painless and extraordinary case of abortion, 221.
 Palate, injuries of, resulting from caries, 168.
 Paper, patent water proof, 456.
 Paralysis; of glosso-pharyngeal nerve, 67; facial, 99; following partial recovery from apoplexy, 276.
 Paraphlegia, 278.
 Paris, medical students in, 60.
 Parturient women, binders for, 253; discussion on, 4.
 Patella, vertical dislocation of, 158.
 Patent; instruments, 58, 178, 445; water-proof paper, 456.
 Pathology of dysmenorrhœa, 222.
 Patrolmen and police surgeons in N. Y., 429.
 Pebble, removal of, from ear, 308.
 Pennsylvania, University of, 397.
 Peppine cases successfully treated by, 10 American, 456.
 Pericarditis, with carcinoma, 44.
 Personals from Europe, 19.
 Perspiration, suppression of;—lowering the temperature and other symptoms produced by, 89.
 Peru, yellow fever in, 25.
 Pertussis, 9.
 Peroxide of Hydrogen, 256.
 Pharmacists, deliberations of, 336.
 Pharmacology of the alkaloids of cinchona, 111.

 Pharyngitis and stomatitis leucæmica, 27.
 Phenic acid as a febrifuge, 336.
 Philosophy of tea-making, 38.
 Phosphorus, in locomotor ataxia, 267; turpentine in poison of, 403.
 Photographs of distinguished physicians, 331; premiums, 416.
 Photography, micro, 39.
 Phthisis, arsenic in, 51; intestinal and pulmonary, 182.
 Physician: female, 15; in Philadelphia Hospital, 179; a good, 159; decay of erudite, 434; photographs of distinguished, 431; family of, a sad accident to, 418.
 Physiological effects of tobacco, 451.
 Physiology of the nervous system, 461;
 Pin, imbedded in the heart of a fowl, 198; curious route of a, 308.

Placenta: abortion and retained, 171; prævia-metro-peritonitis death, 121; prævia, 365.
 Pleuritic effusions, 360.
 Pneumonia, consolidation, following, 441.
 Pneumonitis, 437, 475.
 Poisoned by arsenic, a family, 179.
 Poisoning: opium, artificial respiration in, 34; with opium, 87; 99; 142; 253; by aconite, 157; detection of mercury in, 171; by sulphate of zinc, 178; by strychnia, 301; by chromic acid, 362; by tinc. chloride of iron, 366; by phosphorus-turpentine in, 403; by cimicifuga, 440; criminal, 450.
 Poisonous: dyes, 66; 152; 326; hair dyes, 171, odors, 217.
 Police surgeons and patrol men in N. Y., 429.
 Political doctor, 159.
 Polypus; of ear, 36; vaginæ complicated case of, 352.
 Position in sleeping, 9.
 Post-mortem, specimens, 182.
 Postural treatment of prolapsed funis, 443.
 Potash, chlorate of in abortion, 139.
 Potassium; bromide of, 376; in laryngismus stridulus, 55; in asthma, 158, in threatened abortion, 343; in puerperal convulsions, 348; in chorea of 13 years standing, 351; sulphuret of, a remedy for croup, 377; in epileptic convulsions, 454.
 Practitioner surgical reminiscences of an old, 161, 347.
 Precocious child, 377.
 Pregnancy, diagnosis of early, 70; carbolic acid in sickness of, 319; extra uterine, 416, 443.
 Pregnant woman, blood letting in eclampsia of, 419.
 Premiums, photograph, 416.
 Preservation of freshmeats, 14; of syrup ferri iodidi, 177.
 Preserving anatomical specimens, a new method of, 412.
 Priapism idiopathic, 299.
 Prima donna, and woman doctor chairing of, 159.
 Priority in ligation of femoral artery, 11.
 Prize, SWINEY, 296; surgical, 345.
 Problem, curious family, 220.
 Professor wanted, 116; of homœopathy in University of Michigan, 302.
 Prolapsed funis, postural treatment of, 443.
 Prolapsus uteri, 139.
 Prophecy, a medical fulfilled, 8.
 Protoxide of nitrogen, 39; as an anæsthetic, 30.
 Psoriasis, balsam of copaiba in, 319.
 Public charities and correction in N. Y., 294.
 Pulmonary and intestinal phthisis, 182.
 Pulmonary tuberculosis, influence of climate and locality in mitigating, 41.
 Puerperal convulsions, 119; bromide of potassium in, 348; bleeding in, 383.
 Puerperarum eclampsia, 138; 329.
 "Pure liquor sold here," 39.
 Purpura sarraacenia in variola, 318.

Q.

Quack medicine, inspection of, 325.
 Question, the woman, 374.
 Queries and replies, (see last page of each number.)
